基金收益分派：瑞銀歐元高收益債券基金

2026 年 6 月

Important Information:

1. The Fund primarily invests in a diversified portfolio of EUR higher-yielding bonds with lower ratings.
2. The Fund shall invest at least two-thirds of its assets in debt securities and claims denominated in EUR or provided with an option on EUR and with a rating of between CCC and BB+ (Standard & Poor's), a similar rating from another recognised agency or a comparable internal UBS rating. No more than 10% of the Fund's assets may be invested in debt securities that are issued and/or guaranteed by a single sovereign issuer (including its government, public or local authority) rated below BBB- (Standard & Poor's) or the equivalent rating by at least one recognized rating agency or a comparable internal UBS rating.
3. The Fund's investments may be subject to risks associated with the use of derivatives, the Eurozone, high yield bonds, liquidity, downgrading, interest rate, hedged unit classes, instruments with loss-absorption features and foreign investments.
4. Investment in Eurozone may be subject to additional risks due to Eurozone collective debt crisis, e.g. increase in market volatility, insufficient funding to resolve the crisis, sovereign defaults and possible withdrawals of member states from the Eurozone.
5. Investments in higher-yielding debt securities may be below investment grade or unrated and face on-going uncertainties and are vulnerable to adverse business, financial and economic conditions are subject to risks such as interest rate risk, credit risk and default risk. Investments in below investment grade debt securities may be partially or fully lost under adverse conditions.
6. The Fund may invest in debt instruments with loss-absorption features. Such instruments are subject to greater risks when compared to traditional debt instruments as such instruments are typically subject to the risk of being written down or converted to ordinary shares upon the occurrence of pre-defined trigger event(s) which are likely to be outside of the issuer's control. Such trigger events are complex and difficult to predict and may result in a significant or total reduction in the value of such instruments.
7. The Fund may use financial derivative instruments for hedging, investment and efficient portfolio management purposes. The Fund's net derivative exposure may be up to 50% of the Fund's net asset value. The use of financial derivative instruments may involve risks such as market risk, management risk, counterparty/credit risk, liquidity risk, valuation risk, correlation risk and volatility risk.
8. Under extreme market conditions and circumstances, investment in the Fund may potentially result in total loss of investment.
9. In respect of unit classes with "-mdist" in their name, the Fund may at the discretion of the Management Company make distributions out of capital or out of gross income. Payment of dividends out of capital or payment of dividends effectively out of the Capital may result in an immediate reduction of the net asset value per unit.
10. Any distributions from the income and/or involving the Capital result in an immediate reduction of the net asset value per unit of the Fund. Payment of dividends out of Capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment.
11. The distribution amount and net asset value of a hedged unit class may be adversely affected by differences in the interest rates of the reference currency of the hedged unit class and the Fund's currency of account, resulting in an increase in the amount of distribution that is paid out of capital and hence a greater erosion of capital than other non-hedged unit classes.
12. This investment may involve risks that could result in loss of part or entire amount of investors' investment.
13. Investors should not invest in the Fund solely based on this document and should read the relevant offering documents for further details including risk factors.
14. Investors are responsible for their investment decisions and should seek independent financial and professional advice if required.

重要注意事項:

1. 本基金主要投資於收益較高但評級偏低的歐元債券之多元化投資組合。
2. 本基金將其最少三分之二的資產投資於歐元計值或附有歐元期權的債務證券和債權，其評級介乎 CCC 與 BB+ 之間（標準普爾評級），或其他認可評級機構作出的同等評級，或取得瑞銀內部的類似評級。本基金不會將超過 10% 的資產投資於由單一主權發行人（包括其政府、公共或地方當局）發行和/或擔保的、而被至少一家公認的評級機構評為低於 BBB-（標準普爾）或同等評級的債務證券，或可比的內部 UBS 評級。
3. 本基金的投資可能承受與使用衍生工具、歐元區、高收益債券、流動性、評級下調、利率、對沖單位組別、具損失吸收特點的工具及海外投資相關的風險。
4. 由於歐元區的集體債務危機，投資於歐元區可能面對額外風險，例如市場波動增加、解決日後危機的資金不足、主權違約及成員國可能退出歐元區的風險。
5. 投資於收益較高的債務證券可能低於投資級別或無評級，面對持續不明朗因素，並容易受到不利的商業、金融和經濟情況所影響，須承受風險，例如利率風險、信貸風險及違約風險。在惡劣條件下，投資在低於投資級別的債務證券，有可能會損失部分或全部投資。
6. 本基金可能投資於具損失吸收特點的債務工具。該等工具一般須承受在某預定觸發事件發生時被減記或轉換為普通股的風險，故承受較傳統債務工具為高的風險，並很可能非發行人所能控制。該等觸發事件相當複雜且難以預測，可能會令該等工具的價值大幅或完全減少。

They may also make distributions out of capital and realized capital gains, at the discretion of the Management Company, or pay distributions out of gross income while charging/paying all or part of the fund’s fees and expenses to/out of the capital of the relevant fund, resulting in an increase in distributable income for the payment of distributions by the fund and therefore, the fund may effectively pay distributions out of capital. Warning: Please note that a positive distribution yield does not imply a positive return. Investors should not make any investment decision solely based on information contained in the table above. You should read the relevant offering document (including the key facts statement) of the fund for further details including the risk factors.

“Net distributable income” means net investment income (i.e. dividend income and interest income net of fees and expenses) attributable to the relevant share class and include also net realized gains (if any) based on unaudited management account. However, “net distributable income” does not include net unrealized gains. “Net distributable income” which is not declared and paid as dividends in a period of a financial year would be carried forward as net distributable income for the next period(s) within the same financial year. “Net distributable income” that has been accrued as at the end of a financial year and is declared and paid as dividends at the next distribution date immediately after that financial year end is treated as “net distributable income” in respect of that financial year. However, “net distributable income” accrued as at the end of a financial year and not declared and paid as distributions at the next distribution date immediately after that financial year-end is included as “capital” for the next financial year. “Net distributable income” for the purpose of this dividend composition information document does not include any income equalisation adjustments.

This document has been prepared in accordance with the latest SFC requirements but has not been reviewed by the SFC.
